PROFILE

Passionate Computer Science student with a strong interest in Artificial Intelligence and Machine Learning. Currently building hands-on experience in ML using Python, with a focus on expanding into Natural Language Processing (NLP). Eager to apply academic learning to real-world projects.

EDUCATION

COMSATS University Islamabad, Lahore Campus
BS Computer Science

Lahore, Pakistan

Fall 2023 – Spring 2027 (Expected)

SKILLS

Technical: Python (Intermediate), SQL (Moderate), Java (Intermediate), HTML & CSS (Basic)

Tools: Git, GitHub, Docker (Beginner)

CERTIFICATIONS

Problem Solving (Basic) – Certificate of Accomplishment
HackerRank · [View Certificate](#)

Jul 2025

SQL for Data Science
Great Learning Academy

Jul 2024

PROJECTS

Speech Emotion Recognition

May 2025 – Jun 2025

Tools: Python, Machine Learning (Random Forest Classifier), Tkinter

- Developed an ML-powered desktop application that detects human emotions from speech patterns using a Random Forest Classifier.
- Built an interactive GUI using Tkinter to allow real-time audio input and emotion prediction.
- [View on GitHub](#)

SplitWise – Shared Expense Tracker

Dec 2025

Tools: HTML, CSS, JavaScript, Node.js · Deployed on Vercel

- Designed and built a full-stack expense tracking web app for hostelites to manage and split group expenses per member.
- Implemented features for adding members, recording shared costs, and calculating individual balances.
- [Live App](#)

University Notice Board

Apr 2026

Tools: HTML, CSS, Git, GitHub, Docker, Docker Hub

- Built a containerized notice board web app to gain hands-on experience with Docker, Docker Hub, and CI pipelines.
- Implemented a complete CI workflow integrating GitHub Actions with Docker Hub for automated image builds and deployment.
